

SPRINT REVIEW NOTES

I. GOALS CHECKING

The models diagram is modified to be more realistic and suitable for implementation.

Finish writing Software architecture document.

Finish designing UI.

80% of the XML layouts have been designed.

II. WHAT WORKED WELL?

We have completed the software architecture as well as adjusting some main features for the app.

III. WHAT COULD BE IMPROVED?

Team members should manage their own timetables better to pay more attention to this project.

IV. WHAT WE COMMIT TO DO NEXT SPRINT?

Finish implementing and then deploying the app.
