

SPRINT REVIEW NOTES

I. GOALS CHECKING

Vision document and project plan were updated according to the feedback of stakeholders.

ADMIN UI is in the design process and will need more time to complete. (deadline is the end of the next sprint)

Draw use case diagram was completed on time.

Use-case specifications document also meets our expectations in this sprint.

II. WHAT WORKED WELL?

We have completed the use-case diagram and specifications on time. We also adjusted and standardized the entire features for our app.

III. WHAT COULD BE IMPROVED?

Team members should communicate more to the designer in order to make better decisions, which is required to finish the task on time.

IV. WHAT WE COMMIT TO DO NEXT SPRINT?

We will start the construction phase and we will have the XML code for the UI of all pages of the app.
